

November 2021

## Conducted work learning experience with students from Miyoshi Kita Junior High School in Aichi Pref.

---

Shintec Hozumi Co., Ltd. was selected as a fieldwork destination for Miyoshi Kita Junior High School in Aichi Prefecture, and four students visited the company on November 11 and 12, 2021.

During this period, they observed a demonstration of our transport robots and experienced robot operations. It was very impressive to see how they immediately grasped the point and moved the robot in their own ways.

We hope that this experience will give them a sense of the satisfaction and joy of working.
