

October 2022

## 2022 National Occupational Health Week

### In-house health event

Shintec Hozumi Co., Ltd. will hold a health event for our employees on October 5 (Wednesday) and October 19 (Wednesday) in conjunction with National Occupational Health Week (October 1-7).

The aim is to deepen exchanges between employees and create opportunities for them to become interested in their own bodies and "health" through casual measurement experiences during their lunch breaks.

This year as well, with the cooperation of Yakult Tokai Co.,Ltd. , we planned bone density measurements, skin age measurements, stress checks, and a booth by Nagoya Isen College of Medical & Welfare students.

#### ◆National Labor Health Week

Advocates: Ministry of Health, Labor and Welfare,  
Japan Industrial Safety & Health Association

Period: October 1st to 7th every year

Slogan: A healthy workplace full of smiles because of your health

◆We would like to thank everyone at Yakult Tokai Co.,Ltd. and Nagoya Isen College of Medical & Welfare for their cooperation.
