

July 2020

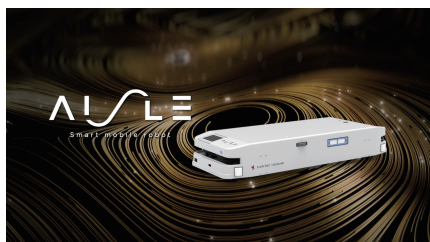

Propose the new hospitality service robot "AISLE" (12th Kansai Hotel & Restaurant Show)

At the 12th Kansai Hotel & Restaurant Show, Shintec Hozumi Co., Ltd. commenced the introduction of the service robot "AISLE".

A society labor shortage is resolved and a new normal livelihood for the Corona Virus pandemic is desired.

Introduce a new and fine quality hospitality which is created by humans and robots.

<AISLE Introduction Movie>

A new proposal that "Supports fine quality hospitality with robots".

Contribute to providing fine quality hospitality by entrusting straightforward transport tasks to robots and having humans commit even more energy to service quality improvement, etc.

https://youtu.be/uEkpkl_XLL8

<AISLE Tower Type Introduction Movie>

A new hospitality which is created by humans and robots.

It is a way of thinking for a new proposal for the new normal period "with AISLE".

A new form of "Hospitality" that can be done especially because it is a multi-use robot.

<https://youtu.be/Z4-apli8bFs>

<AISLE Tower Type Product Information>

Realize multi-use by equipping other various functions for dolly towing, by means of electro magnetics, for robots that can do "all sorts of thing" from "just one".
