## "3rd RoboDEX Nagoya" exhibit information

---

Shintec Hozumi Co., Ltd. will exhibit at the "3rd RoboDEX Nagoya.

At the exhibit this time, we will do a demonstration exhibit for robots that cooperate closely with people.

If you are in attendance, we look forward to you paying a visit to our booth.

### ◆Exhibit Robot

<Transport Robot for Production Sites, Next Generation Concept Model>

Contribute to Smart Factory by replacing conveyor belts and enabling flexible handling for variant variable production.

While being compact and low cost, high productivity is being realized.

<Transport Robot for Public Space Next Generation Concept Model>

Adopted a design that will integrate into every day life, in order to propose transport possibilities in an extensive scene.

It makes efficient transport possible without including large remodeling to dollies.

<Robot for Public Spaces, AISLE Tower Type>

It's a robot that can do "various" things as 1 unit.

We will introduce a disinfection function by means of UV irradiation, which is a new option function.

Aiming at the new normal livelihood for the Corona Virus pandemic, we propose creating environments where livelihoods and work can be done with a constant peace of mind.
